
Course summary

Congratulations on completing the third course in the Google Cloud Computing Foundations series! Continue your learning journey and enroll in the final course in the series: **Google Cloud Computing Foundations: Data, ML, and AI in Google Cloud**.

To further demonstrate your capabilities in building and securing networks in Google Cloud, you now have the opportunity to earn a digital Google Cloud skill badge.

The labs you completed throughout this course were stepping stones to prepare you for the final **Challenge Lab in the Build and Secure Networks in Google Cloud** skill badge quest. Follow the steps below:

1. [Enroll](#) in the Build and Secure Networks in Google Cloud Quest.
2. Complete any unfinished labs.
3. Complete the [Build and Secure Networks in Google Cloud: Challenge Lab](#).
4. Earn your skill badge and [share on social media or your resume](#).
