

Quiz: Let Machines Do the Work

Your score: 100% Passing score: 66%

Congratulations! You passed this assessment.

Retake

check

1.

Which machine learning service can run Tensorflow at scale?

☐

Pre-trained machine learning APIs

☐

AutoML

☐

Tensorflow

checkAI Platform

AI Platform allows you to run Tensorflow at scale by providing a managed infrastructure.

check

2.

Which machine learning tool would be the best option for someone that wants a custom model but has limited application development or data science skills?

☐

AI Platform

checkAutoML

☐

Speech API

☐

Tensorflow

AutoML is a great option when you want to leverage machine learning to build a custom model and you are not an application developer or a data scientist.

check

3.

What Google machine learning API can be used to gain meaning and sentiment from text?

checkNatural Language API

☐

Speech-to-Text API

☐

Video Intelligence API

☐

Vision API

The Natural Language API is used to try to derive meaning and sentiment from text.
