
Course summary

Congratulations on completing the final course in the Google Cloud Computing Foundations series!

To further demonstrate your capabilities in performing foundational data, machine learning, and AI tasks, you now have the opportunity to earn a digital Google Cloud skill badge.

The labs you completed throughout this course were stepping stones to prepare you for the final **Challenge Lab in the Perform Foundational Data, ML, and AI Tasks in Google Cloud** skill badge quest. Follow the steps below:

1. [Enroll](#) in the Perform Foundational Data, ML, and AI Tasks in Google Cloud Quest.
2. Complete any unfinished labs.
3. Complete the [Perform Foundational Data, ML, and AI Tasks in Google Cloud: Challenge Lab](#).
4. Earn your skill badge and [share on social media or your resume](#).
